

Books

1. S.A. Hosseini, M. Sabati. Random Data Analysis. Amirkabir University Press, 2005.
2. H. Tavanai, S.A. Hosseini. Air Jet Weaving Machines. Esfahan: Arkan-e-Danesh, 2005.
3. S.A. Hosseini, M. Valizade. An Investigation on the Structure of the Centers of Excellence. Esfahan: Arkan-e-Danesh, 2008.
4. S.A. Hosseini, A. Tabibi. Computational Color Science Using Matlab. Isfahan: Isfahan University of Technology, Jahad, 2007.

Chapters in books

5. M. Valizadeh, S.A. Hosseini Ravandi and M. Salimi “Application of force balance method to determine the internal mechanical characteristics of woven fabrics” & “Force-balance method: an analytical model to estimate the Internal mechanical specifications of woven fabrics” in Computational Methods in Applied Science and Engineering, chapter 27-28. A.K. Haghi, Ed. USA: Nova publisher, 2010, pp. 407-435.
6. S.A. Hosseini Ravandi, M. Valizadeh. “Fundamentals of comfort and assessment (Properties of fibers and fabrics that contribute to human comfort)” in Improving Comfort in Clothing, part 1(2). G. Song, Ed. UK: Woodhead Publishing, 2011, pp. 61-78.
7. S.A. Hosseini Ravandi, M. Mehraban in “Principles and Technologies of Nanofibrous Structures Production” Vol.2: Applications, 2011.
